1. Nasal Clip(SPEARMINT)

1. Product Overview

This product features a soft, skin-friendly silicone one-piece nose clip with an integrated high-absorbency fragrance-locking cotton core filled with natural spearmint essential oil; it can be directly clipped onto the nasal cavity for use. The refreshing minty cooling sensation clears the nasal passages, quickly refreshes the mind, alleviates fatigue, and soothes nasal congestion or discomfort. The 4-pack bulk edition is stored in separate compartments; the vacuum-formed hanging card design ensures a secure seal that preserves the fragrance for easy portability. Its natural botanical essential oil formula is gentle and non-irritating, making it suitable for individuals who feel drowsy while driving, students reviewing study materials, office workers working late, people experiencing nasal congestion during seasonal transitions, or those prone to motion sickness or tightness. This portable cooling nasal clip provides continuous fragrance diffusion and is perfect for on-the-go use.

2. Product Specifications and Material Composition

Product Specifications	The single-card set includes 4 nose clips; stored in separate sealed compartments; compact and precisely shaped to fit the nose; the entire set is packaged in a thermoformed hanging card sleeve.
Material Composition	Nasal clip body: high elasticity and soft food-grade silicone; inner core carrier: lock-fragrance fiber cotton; essential oil ingredients: lavender and mint extract essential oils, natural cooling plant extracts, and mild aromatic additives

3. Direction for use

Item	Content
Directions for Use	Remove the nasal clip, gently insert it into the inner sides of both nostrils, and breathe in the refreshing fragrance continuously through your nasal passages; after removal, store it back in the transparent case.
Storage Conditions	Store in a cool, dry, and light-resistant location; avoid exposure to high temperatures or direct sunlight to prevent accelerated evaporation of the essential oil; when not in use, keep tightly sealed.
Precautions	1. Not for use in cases of nasal cavity injury, during the acute phase of rhinitis, in individuals allergic to peppermint essential oil, or in infants and young children; 2. For nasal application only via sniffing; do not ingest, and do not forcefully probe the nasal cavity.

2. Nasal Clip (LAVENDER)

1.Product Overview

This product features a soft, skin-friendly silicone nose clip with an integrated design, equipped with a high-absorbency fragrance-locking cotton core filled with natural lavender soothing botanical essential oils; it can be directly clipped onto the nasal cavity for use. The gentle lavender scent helps soothe tense emotions, relax both mind and body, clear the nasal passages, and assist in calming irritability while improving light sleep patterns and reducing frequent dreaming. The 4-piece bulk pack is stored in separate compartments; the vacuum-formed hanging card provides a sealed fragrance-locking mechanism, making it easy to carry with you at all times. Its natural botanical essential oil formula is mild and non-irritating, making it suitable for individuals experiencing high stress, difficulty falling asleep, nasal congestion, anxiety caused by staying up late, or experiencing light sleep. This is a portable, continuous-release fragrance-enhancing nose clip designed to aid sleep and promote relaxation.

2. Product Specifications and Material Composition

Item	Content
Product Specifications	The single-card set includes 4 nose clips; each nose clip features an independent transparent sealed compartment; compatible with most nose shapes and mini sizes; packaged in a complete set of black thermoformed hanging cards.
Material Composition	Nasal clip body: high-elastic, soft food-grade silicone; inner core carrier: lock-scented fiber cotton; essential oil ingredients: lavender soothing plant essential oils, and natural, mild botanical additives.

3. Direction for use

Item	Content
Directions for Use	Remove the nasal clip, gently insert it into the inner sides of both nostrils, and breathe normally to inhale the soothing lavender fragrance; after use, store it back in the transparent protective case.
Storage Conditions	Store in a cool, dry, and light-protected place; avoid exposure to high temperatures or direct sunlight to prevent accelerated evaporation of the essential oil. When not in use, store in a sealed container to preserve its fragrance.
Cautions	1. This product is for external use only; nasal clips may be used for sniffing purposes only. Do not swallow this product, and avoid contact with damaged eyes or oral mucosa. Children should use this product under adult supervision. 2. If you experience nasal itching or redness as signs of an allergic reaction, please remove the product immediately, discontinue use, and rinse your nasal cavity with clean water.

3. NASAL STICK

1. Product Overview

This product features a small green metal-style tube equipped with a portable hanging clip, containing an absorbent fragrance-locking cotton core filled with refreshing green tea botanical extracts and cooling essential oils. It supports both nasal inhalation and spot application on the temples; its fresh and elegant green tea aroma combined with a cool sensation helps quickly relieve nasal congestion, refresh the mind, alleviate boredom, and reduce feelings of drowsiness and fatigue. The hook-and-loop design allows for direct attachment to a backpack or keychain for convenient portability, while the independent vacuum-formed plastic card packaging provides a secure fragrance-locking seal. Its natural botanical formula offers a refreshing yet non-irritating experience, making it ideal for long-distance driving, classroom use by students, late-night work sessions, seasonal nasal congestion, motion sickness, or outdoor activities—making it a versatile single-use refreshing and invigorating nasal inhaler that is easy to carry and store.

2. Product Specifications and Ingredients

Item	Content
Product Specifications	Single independent eco-friendly printed stretch-wrapped hanging card packaging; includes a built-in hanging clip and mini tube; net weight per unit: approximately 1.2g; portable and compact size.
Material Composition	Tube casing: food-grade PP hanging clip + metal-textured laminated tube body; inner core carrier: high-absorption fiber-based fragrance-locking cotton; essential oil ingredients: green tea extract essential oils, menthol, natural cooling plant extracts, and gentle blended aromatic additives

3. Direction for use

Item	Content
Directions for Use	Turn the top dust cover counterclockwise; place the nozzle near your nostrils and take a light sniff; alternatively, dip a small amount of essential oil in it and apply it to your temples or the philtrum to relieve drowsiness.
Storage Conditions	Store in a cool, dry, and light-proof location; after use, tighten the tube cap to seal and preserve its aroma; keep away from high temperatures, direct sunlight, and open flames.
Cautions	1. Not for use in cases of nasal cavity injury, during the acute phase of rhinitis, in individuals with essential oil allergies, or in infants and young children; 2. For external use only—for nasal inhalation or topical application as a small amount to the skin; ingestion or deep insertion into the nasal cavity is strictly prohibited; 3. The duration of a single inhalation should be limited to 3 – 5 seconds; avoid inhaling cool air that may cause dizziness.

4. Nasal inhalation cooling oil

1. Product Overview

This product comes in a portable, screw-cap plastic tube containing a high-absorbency fragrance-locking cotton core filled with natural cooling botanical essential oils; it supports both nasal inhalation and topical application. It provides a refreshing, breathable cooling sensation that rapidly clears nasal passages, refreshes the mind, alleviates fatigue, and soothes stuffy noses during seasonal transitions, car rides, study sessions, late-night work, or when experiencing motion sickness or confined-space discomfort. Each unit is individually packaged in an aluminum foil sealed pouch, featuring a 2ml large capacity for long-lasting fragrance retention. Its natural botanical ingredients are gentle and non-irritating, making this cooling and invigorating nasal inhaler ideal for use by drivers feeling drowsy, students reviewing materials, office workers working late, individuals with seasonal nasal congestion, those prone to motion sickness during travel, or anyone experiencing tightness in enclosed spaces—making it a convenient, portable solution for refreshing breath and boosting energy.

2. Product Specifications and Ingredients

Item	Content
Product Specifications	Net content per unit: 2 mL; mini portable twist-tube design; each unit individually packaged in a blue aluminum foil sealed pouch.
Material Composition	Inner core carrier: high-absorption fiber-based fragrance-locking cotton; tube body shell: food-grade PP plastic; essential oil ingredients: natural cooling plant extracts, menthol, and soothing blending aromatic additives

3. Direction for use

Item	Content
Directions for Use	Unscrew the top dust cover, bring the nozzle close to your nostrils and take a light sniff; alternatively, apply a small amount to your temples or the philtrum to relieve drowsiness.
Storage Conditions	Store in a cool, dry, and light-proof location; after use, tighten the tube cap to seal and preserve its aroma; keep away from high temperatures, direct sunlight, and open flames.
Cautions	1. For external use only; do not ingest, and do not apply directly to the interior of the nasal cavity; 2. Use with caution in cases of nasal cavity damage, essential oil allergy, acute rhinitis, infants, or pregnant women; 3. Limit single inhalation duration to 3–5 seconds; avoid excessive cold stimulation that may cause dizziness.

5. NASAL STICK

1. Product Overview

This product features a small pink metal-style tube with a portable hanging clip, containing a high-absorbency fragrance-locking cotton core filled with natural lavender soothing botanical essential oils. It supports both nasal inhalation and topical application to the temples; its gentle lavender scent combined with a refreshing cool sensation helps clear nasal passages, soothe tension and anxiety, relax both mind and body, and alleviate issues such as light sleep, frequent dreaming, irritability, and fatigue. The hook-and-loop design allows it to be easily attached to backpacks or keychains for convenient portability, while the independent purple-printed vacuum-formed cardstock provides a secure seal to lock in the fragrance. Its natural botanical formula is gentle and non-irritating, making it ideal for individuals experiencing insomnia due to staying up late, high work-related stress, students reviewing exam questions, those with nasal congestion during seasonal transitions, or travelers prone to motion sickness—making it a versatile, easy-to-carry nasal inhalation aid designed to promote relaxation and sleep.

2. Product Specifications and Ingredients

Item	Content
Product Specifications	Single independent purple floral printed stretch film hanging card packaging; includes a built-in hanging clip and mini tube; net weight per unit: approximately 1.2g; compact and portable dimensions.
Material Composition	Tube body shell: food-grade PP plastic hanging clip + holographic metallic-coated tube body; inner core carrier: high-absorption fiber-based fragrance-locking cotton; essential oil ingredients: lavender soothing plant essential oils, menthol, naturally gentle cooling botanical extracts, and blended aromatic additives

3. Direction for use

Item	Content
Directions for Use	Turn the top dust cover counterclockwise; place the nozzle near your nostrils and take a light sniff; alternatively, dip a small amount of essential oil in the nozzle and apply it to your temples or the philtrum to soothe restlessness and fatigue.
Storage Conditions	Store in a cool, dry, and light-protected location; after use, tighten the tube cap to seal and preserve its aroma; keep away from high temperatures, direct sunlight, heat sources, and open flames.
Cautions	1. Not for use by individuals with nasal cavity injuries, severe rhinitis, lavender essential oil allergies, or infants and young children; 2. For external use only via inhalation or as a small topical application to the skin; ingestion or deep insertion into the nasal cavity is strictly prohibited.

6. Essential Oil Foot Bath Beads (Dream-Enhancing Type)

1.Product Overview

This product is crafted from a water-soluble instant base to create spherical foot-soaking beads infused with lavender soothing botanical essential oils. Upon contact with water, these beads dissolve rapidly to release nourishing fragrance, gently moisturizing and soothing the feet, relaxing tense muscles, calming both mind and body, and promoting a peaceful night's sleep. Each unit is individually packaged for cleanliness and hygiene; the entire set is portable and easy to store. Its natural botanical formula is gentle on the skin, making it ideal for individuals experiencing insomnia due to staying up late, fatigue from prolonged sitting, sore or swollen legs, or high levels of stress. This product is an excellent choice for home use—perfect for relaxation, sleep aid, and overall soothing foot care.

2. Product Specifications and Ingredients

Item	Content
Product Specifications	Each box contains 24 foot bath beads; each bead is individually packaged; gift-boxed packaging with a large-capacity household size.
Material Composition	Bead Matrix: instant effervescent water soluble carrier; Core Ingredients: lavender plant essential oil, soothing botanical extracts, and skin-nourishing auxiliary ingredients; Outer Packaging: laminated paper gift box with individual single-unit film-sealed packaging.

3. Direction for use

Item	Content
Directions for Use	Fill a foot-soaking basin with warm water, add 1 foot bath bead to the water, wait until it has fully dissolved, then soak your feet for 15–20 minutes.
Storage Conditions	Store in a cool, dry, light-protected place; avoid high-temperature and humid environments; keep tightly sealed to prevent moisture-induced melting.
Cautions	1. Contraindications: Use with caution in individuals with foot lesions or ulceration, skin allergies, during pregnancy, or those with skin inflammation; 2. For external use only for foot soaking; do not take orally; 3. The water temperature for foot soaking should not be too high.

7. Snuff/ refreshing Burst(Dual-head Nasal Inhaler)

1. Product Overview

This product features a portable plastic rotating tube containing a high-lock cotton core filled with refreshing peach-derived botanical essential oil—deliciously sweet in flavor. It supports both nasal inhalation and topical application to the temples; its gentle fruity aroma combined with a cooling sensation rapidly clears the nasal passages, refreshes the mind, alleviates fatigue, and soothes feelings of heat and drowsiness. The fragrance is fresh and non-irritating, packaged in a compact, individually sealed single-unit design for easy portability. With its natural botanical formula, it offers a mild and refreshing experience, making it ideal for individuals who feel drowsy while driving, during prolonged office work, while studying in class, in confined or stuffy environments, or when experiencing nasal congestion—a versatile portable nasal refreshment stick with dual-use benefits.

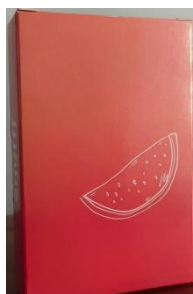

2. Product Specifications and Ingredients

Item	Content
Product Specifications	Each unit is individually sealed; each tube features a compact, portable size; the full box contains multiple units in a gift set, making it convenient for stocking up or sharing.
Material Composition	Inner core carrier: High-absorption fiber cotton; outer shell component: lightweight PP plastic; essential oil ingredients: honey peach fruit fragrance extract essential oil, menthol, natural cooling botanical extracts, and mild aromatic additives

3. Direction for use

Item	Content
Directions for Use	Unscrew the top dust cover, bring the nozzle close to your nostrils and take a light sniff; alternatively, apply a small amount to your temples or the philtrum area to relieve fatigue.
Storage Conditions	Store in a cool, dry, and light-proof location; keep away from high temperatures, direct sunlight, and open flames; tighten the lid securely to preserve the aroma.
Cautions	1. Not for use in cases of nasal cavity injury, essential oil allergy, or during the acute phase of rhinitis; not for use in infants or young children; 2. For external use only via sniffing or topical application; ingestion or deep insertion into the nasal cavity is strictly prohibited.

8. Snuff/ Vibe Boost(Dual-head Nasal Inhaler)

1. Product Overview

This product features a portable plastic rotating tube containing a high-absorbency fragrance-locking cotton core filled with refreshing sweet watermelon aroma essential oil. It supports both nasal inhalation and topical application to the temples; its crisp watermelon scent pairs with a refreshing cool sensation that quickly clears the nasal passages, refreshes the mind, alleviates lethargy, and reduces feelings of drowsiness or fatigue—without overwhelming the sense of smell. Each unit comes in an individually sealed, compact packaging, making it easy to carry anywhere. The natural botanical formula is gentle on the skin and suitable for individuals who feel sleepy while driving, students during class, office workers in prolonged sedentary positions, people in enclosed spaces with hot and stuffy conditions, or those experiencing nasal congestion. This fruit-flavored dual-use nasal inhaler is the perfect portable solution for instant refreshment and mental clarity.

2. Product Specifications and Ingredients

Item	Content
Product Specifications	Each unit features a compact portable spiral tube design and is individually sealed; the entire set comes in a colorful gift box package, making it easy to store, stock up on, and share.
Material Composition	Inner core: High-absorption fiber-based odor-locking cotton; Outer shell: Lightweight food-grade PP plastic; Essential oil ingredients: watermelon fragrance extract essential oil, menthol, natural cooling plant extracts, and mild aromatic additives.

3. Direction for use

Item	Content
Directions for Use	Unscrew the top dust cover, bring the nozzle close to your nostrils and take a light sniff; alternatively, apply a small amount to your temples or the philtrum area to soothe fatigue.
Storage Conditions	Store in a cool, dry, light-proof location; tighten the tube cap to ensure a tight seal and preserve the aroma; keep away from high temperatures, direct sunlight, and open flames.
Cautions	1. Not for use in cases of nasal cavity injury, essential oil allergy, or during the acute phase of rhinitis; not for use in infants or young children; 2. For external use only via sniffing or by applying a small amount topically to the skin; ingestion is strictly prohibited.

9. Plant Essential Oil Scent Capsule (Phone Case Scented Sticker)

1. Product Overview

This product features a breathable printed backing film paired with built-in fragrance diffusing beads, boasting a retro and distinctive totem-style design. When applied to the back cover of your smartphone, it slowly releases a subtle fragrance that eliminates odors from your device, neutralizes surrounding unpleasant smells, and refreshes your personal space. It is lightweight, comfortable to hold, and securely adheres without peeling; multiple fragrance options are available, all featuring a gentle, natural botanical formula that is non-irritating. Perfect for commuters, students, office workers, and travelers, this scented smartphone sticker serves as both a portable fragrance enhancer and an elegant decorative accessory.

2. Product Specifications and Ingredients

Item	Content
Product Specifications	Each box contains multiple individually packaged sheets; each sheet features a slim and lightweight design; the entire box comes in a retro color-printed gift packaging, making it ideal for stocking up and sharing.
Material Composition	Base layer: breathable non-woven fabric printed base film, seamless eco-friendly adhesive; Core ingredients: plant-based fragrance beads, slow-release fragrance-locking auxiliary materials; Outer packaging: laminated color-printed cardboard box, individual sealed pouches.

3. Direction for use

Item	Content
Directions for Use	Remove the back release paper, then smooth it out and adhere it to the back cover or the inner side of the phone case; press firmly, and gently pinch the adhesive patch to accelerate the diffusion of the fragrance beads.
Storage Conditions	Store in a cool, dry, and light-resistant location; avoid exposure to high temperatures or direct sunlight; store unopened until use to prevent the fragrance from evaporating prematurely.
Cautions	1. Contraindications: Use with caution if you have fragrance allergies or sensitive skin; 2. For external use only (for application on surfaces); do not ingest, and avoid contact with eyes, mouth, or nose; 3. Avoid applying the product near the phone's heat dissipation vents, as high temperatures may accelerate the depletion of the micro-burst beads.

10. Goodnight Spray | Essential Oil Deep Sleep Series

1. Product Overview

This product features a fine atomizing spray bottle design and combines various natural soothing botanical essential oils, including Yilan, tea seed oil, and lavender. Simply spritz it onto pillowcases, bedding, or throughout your bedroom before bedtime to create a gentle fragrance that soothes tense emotions, calms restless thoughts, and relaxes both body and mind—helping alleviate sleep difficulties, light sleep, and excessive dreaming. The 60ml portable bottle delivers a delicate mist without wetting the bedding; its botanical essential oil formula is warm and non-irritating, making it ideal for individuals experiencing high stress, insomnia due to staying up late, light sleep patterns, or anxiety. This product serves as an effective bedtime fragrance care spray for promoting relaxation and aiding sleep at home.

2. Product Specifications and Ingredients

Item	Content
Product Specifications	Single-bottle capacity: 60 ml; features a press-type atomization nozzle design; packaged in a laminated paper gift box; shelf life: 3 years
Material Composition	Bottle: PET sealed spray bottle + fine mist pressurized nozzle; Core ingredients: Yilan oil, tea seed oil, orange oil, lavender oil, geranium oil, sour jujube seed oil, angelica root oil, deionized water

3. Direction for use

Item	Content
Directions for Use	Directions for Use: Before bedtime, spray 2–3 light sprays from a distance of 15 cm away from your pillow, bedding, or bedroom environment; wait until the fragrance has fully diffused before going to sleep.
Storage Conditions	Store in a cool, dry, and light-proof location; avoid direct sunlight and high-temperature environments; tighten the spray nozzle's sealing lock.
Cautions	1. Do not ingest; for external use only—spray onto surfaces or fabrics; avoid direct spraying onto the eyes or facial skin; 2. In the event of accidental eye contact, rinse thoroughly with clean water; 3. Use with caution by pregnant women, individuals with asthma, or those who are allergic to essential oils.

11. Nasal Inhaler(LAVENDER)

1. Product Overview

This product comes in a portable, screw-cap plastic tube containing a high-lock fragrance-absorbing cotton core filled with natural lavender soothing botanical essential oil. It supports both nasal inhalation and topical application to the temples; its gentle lavender scent combined with a refreshing cooling sensation quickly clears nasal congestion, soothes tense emotions, and relaxes both mind and body—effectively addressing issues such as anxiety caused by staying up late or poor sleep quality characterized by frequent dreaming. This bulk pack contains three units per card; the product is sealed in an embossed cardboard sleeve with a fragrance-locking mechanism and complies with cross-border export packaging standards. Its natural botanical formula is gentle and non-irritating, making it suitable for commuters, drivers, students working at desks, office workers staying up late, individuals experiencing nasal congestion during seasonal transitions, those struggling with stress-induced insomnia, or anyone prone to motion sickness or feelings of discomfort. This is a versatile, portable nasal soothing stick that can be either inhaled or applied topically, ideal for bulk stocking.

2. Product Specifications and Ingredients

Item	Content
Product Specifications	The single-card set includes 3 nose suction sticks; total net weight: 3.6g; weight per stick: approximately 1.2g; dimensions of each mini suction tube; the entire set is packaged in a dedicated cross-border stretch-molded hanging card independent sealed package.
Material Composition	Inner core carrier: High-absorption fiber-based fragrance-locking cotton; Tube body shell: Food-grade PP plastic; Essential oil ingredients: natural lavender soothing essential oil, menthol, mild cooling botanical extracts, and blended aromatic additives

3. Direction for use

Item	Content
Directions for Use	Unscrew the top dust cover, bring the nozzle close to your nostrils, and take a light sniff; alternatively, dip a small amount of essential oil in it and apply it to your temples or the philtrum to relieve fatigue and irritability.
Storage Conditions	Store in a cool, dry, and light-proof location; after use, tighten the tube cap to seal and preserve its aroma; keep away from high temperatures, direct sunlight, and open flames.
Cautions	1.Not for use in cases of nasal cavity injury, during the acute phase of rhinitis, in individuals with lavender essential oil allergies, or in infants and young children; 2. For external use only via inhalation or by applying a small amount to the skin; ingestion or application deep into the nasal cavity is strictly prohibited.

12. Nasal Inhaler(Green tea)

1. Product Overview

This product features a portable screw-cap plastic tube containing a high-lock fragrance-absorbing cotton core filled with refreshing green tea botanical extract cooling essential oil; it supports both nasal inhalation and spot application on the temples. The fresh and elegant green tea aroma combined with a cool sensation helps quickly relieve nasal congestion, refresh the mind, alleviate boredom, and reduce feelings of drowsiness and fatigue. This bulk-pack set contains three units; the packaging is sealed with stretch film and cardstock to lock in the fragrance, and the packaging complies with cross-border export standards. Its natural botanical formula ensures a refreshing experience without any harsh odor, making it ideal for long-distance driving, classroom use by students, late-night work sessions, seasonal nasal congestion, motion sickness, or for individuals experiencing fatigue from prolonged sitting. This cross-border portable refreshing and invigorating nasal inhaler is suitable for both inhalation and topical application, and is perfect for bulk stocking.

2. Product Specifications and Ingredients

Item	Content
Product Specifications	The single-card set includes 3 nose suction sticks; total net weight: 3.6g; weight per stick: approximately 1.2g; dimensions of each mini suction tube; the entire cross-border dedicated suction-molding hanging card set is packaged in an independent sealed package.
Material Composition	Inner core carrier: High-absorption fiber-based fragrance-locking cotton; Tube body shell: Food-grade PP plastic; Essential oil ingredients: Green tea plant-derived essential oils, menthol, natural cooling botanical extracts, and mild aromatic additives

3. Direction for use

Item	Content
Directions for Use	Unscrew the top dust cover, bring the nozzle close to your nostrils, and take a light sniff; alternatively, dip a small amount of essential oil in it and apply it to your temples or the philtrum to help relieve drowsiness.
Storage Conditions	Store in a cool, dry, and light-proof location; after use, tighten the tube cap to seal and preserve its aroma; keep away from high temperatures, direct sunlight, and open flames.
Cautions	1. Not for use in cases of nasal cavity injury, during the acute phase of rhinitis, in individuals with essential oil allergies, or in infants and young children; 2. For external use only via sniffing or by applying a small amount to the skin; ingestion or application deep into the nasal cavity is strictly prohibited.

13. Nasal Inhaler(Coffee)

1. Product Overview

This product features a portable screw-cap plastic tube containing a high-lock fragrance-absorbing cotton core filled with rich coffee-infused cooling botanical essential oil; it supports both nasal inhalation and spot application on the temples. The intense coffee aroma combined with a refreshing cooling sensation rapidly clears nasal congestion, provides powerful mental stimulation to combat drowsiness, and alleviates lethargy. This bulk-pack set contains three tubes per card; the product is sealed in stretch-wrapped cardboard for optimal fragrance retention, making it highly convenient for portability. Its natural botanical formula offers a rich aroma without being pungent or irritating to the nose, making it ideal for long-distance driving, overtime work, late-night studying, seasonal nasal congestion, or individuals who feel groggy upon waking. This is a potent, portable nasal stimulant stick that can be used either for inhalation or topical application, and is perfect for stocking up on multiple units.

2. Product Specifications and Ingredients

Item	Content
Product Specifications	The single-card set includes 3 nose suction sticks; total net weight: 3.6 g; weight per stick: approximately 1.2 g; each stick features a mini spiral tube design; the entire set is packaged in an independent sealed blister pack made of thermoformed cardstock.
Material Composition	Inner core carrier: High-absorption fiber-based fragrance-locking cotton; Tube body shell: Food-grade PP plastic; Essential oil ingredients: coffee extract fragrance, menthol, natural cooling plant extracts, and mild blending additives;

3. Direction for use

Item	Content
Directions for Use	Unscrew the top dust cover, bring the nozzle close to your nostrils, and take a light sniff; alternatively, dip a small amount of essential oil in it and apply it to your temples or the philtrum to help relieve drowsiness.
Storage Conditions	Store in a cool, dry, and light-proof location; after use, tighten the tube cap to seal and preserve its aroma; keep away from high temperatures, direct sunlight, and open flames.
Cautions	1.Not for use in cases of nasal cavity injury, during the acute phase of rhinitis, in individuals with caffeine or essential oil allergies, or in infants and young children; 2. For external use only via nasal inhalation or by applying a small amount to the skin; ingestion or deep application into the nasal cavity is strictly prohibited; 3. The duration of a single nasal inhalation should be limited to 3–5 seconds; avoid inhaling cool sensations or coffee-like aromas that may trigger palpitations or dizziness

14. Plant Essential Oil Scent Capsule (Sweet Dreams Series)

1. Product Overview

This product features a soft, breathable non-woven base film paired with a seamless, eco-friendly adhesive backing, and contains embedded lavender soothing plant essential oil fragrance beads. When applied to pillowcases, bedside areas, or clothing, these beads slowly release a gentle sleep-enhancing fragrance that helps soothe tense emotions, calm restless thoughts, and create a serene, relaxing sleep environment. The product is lightweight, fits comfortably without wrinkling, and comes with a transparent storage box for easy cleaning and portability. Its natural botanical fragrance is mild and non-irritating, making it ideal for individuals experiencing high stress, difficulty falling asleep, light sleep with frequent dreams, or general anxiety. This fragrance bead sticker is a versatile solution combining sleep aid and room deodorization in one product.

2. Product Specifications and Ingredients

Item	Content
Product Specifications	The entire box contains multiple individual sheets; each sheet is lightweight and flat; packaged in a transparent plastic storage box for easy storage and convenient portability.
Material Composition	Base layer: breathable non-woven fabric printed backing film; seamless skin-friendly adhesive; Core ingredients: lavender soothing botanical essential oil Scent Capsule, slow-release fragrance-locking auxiliary components; Outer packaging: transparent sealed plastic storage box

3. Direction for use

Item	Content
Directions for Use	Remove the back release paper, then smooth it out and apply it to the pillowcase, pajamas, or bedside; gently pinch the adhesive patch to break the release bead, which will accelerate the diffusion of fragrance.
Storage Conditions	Store in a cool, dry, and light-resistant location; avoid exposure to high temperatures or direct sunlight; keep unopened until use to prevent the fragrance from evaporating prematurely.
Cautions	1. Use with caution if you have fragrance allergies or sensitive skin; 2. For external use only (as a patch); do not ingest, and avoid contact with eyes, mouth, or nose; 3. Do not leave on the skin for extended periods; it is recommended for use on fabric surfaces.

15. Energy-boosting pen

1. Product Overview

This product features a matte plastic body paired with a smooth pen tip, and incorporates an integrated Italian-imported lemon essential oil core, offering both writing and aromatic inhalation functions. The subtle lemon fragrance combined with a refreshing sensation allows users to quickly refresh their mind and dispel drowsiness simply by taking a light sniff during breaks from writing, effectively alleviating lethargy experienced during study or office work. It comes with a replaceable ink cartridge for long-lasting ink capacity, is packaged in a vacuum-formed cardstock case for portability and cleanliness, and features a natural lemon botanical aroma that is fresh yet non-irritating. This product is ideal for students working through practice problems, office workers performing desk-based tasks, and individuals prone to drowsiness during prolonged writing sessions—a versatile dual-purpose essential oil-inspired refreshing pen that combines smooth writing performance with portable invigorating functionality.

2. Product Specifications and Ingredients

Item	Content
Product Specifications	Single fountain pen + 2 matching replacement ink cartridges; pen body conforms to standard fountain pen dimensions; packaged in a single independent blister pack with a patented design.
Material Composition	Pen body casing: matte hard PP plastic; writing components: metal pen tip, replaceable standard ink cartridge; fragrance ingredients: imported Italian lemon plant essential oil, lock-and-release cotton core

3. Direction for use

Item	Content
Directions for Use	The ink cartridge enables normal writing; if you feel drowsy, bring the pen's fragrance tip close to your nose and take a light sniff for 3–5 seconds to refresh your mind.
Storage Conditions	Store in a cool, dry, and light-proof location; avoid exposure to high temperatures or direct sunlight to prevent accelerated evaporation of the essential oil. When not in use, cover the pen cap tightly for sealing.
Cautions	1. Not for use by individuals with essential oil allergies, those with nasal injuries, rhinitis, or infants and young children; 2. The fragrance is intended solely for external inhalation only; do not ingest or apply to the nasal cavity; 3. Do not inhale for an extended period at one time; avoid inhaling in a way that may cause dizziness due to fragrance irritation.

16. Lavender Sleep Aid Essential Oil Patch

1. Product Overview

This product features a lightweight, breathable non-woven fabric base paired with a seamless, non-abrasive fabric adhesive backing, and contains embedded lavender soothing essential oil Scent Capsule. When applied to pillowcases, pajamas, or bedding, simply press gently to release a soft botanical fragrance that soothes tension and anxiety, calms restless thoughts, and helps alleviate difficulties falling asleep or experiencing light sleep with frequent awakenings. Each box contains 18 large-capacity individual units packaged in a laminated colored box with a sealed fragrance-locking system for convenient storage and portability. The natural lavender essential oil formula is gentle, mild, and non-irritating, making this product ideal for individuals experiencing high stress, insomnia due to staying up late, poor sleep quality, or mental overstimulation. This portable, long-lasting slow-release sleep-enhancing fragrance micro-ball sticker is the perfect travel companion for improving sleep quality.

2. Product Specifications and Ingredients

Item	Content
Product Specifications	Each box contains 18 essential oil Scent Capsules; each patch is lightweight and features standard dimensions; packaged in a color-printed laminated cardboard box with a sealed seal, allowing each patch to be used individually.
Material Composition	Non-woven patch base: breathable non-woven fabric; seamless eco-friendly adhesive backing; core ingredients: lavender natural soothing essential oil Scent Capsule, sustained-release fragrance-locking auxiliary components; outer packaging: waterproof laminated color-printed cardboard box

3. Direction for use

Item	Content
Directions for Use	Remove the back release paper, then press the patch flat onto the pillowcase, pajamas, or bedside fabric; gently pinch the patch to break the microcapsules and accelerate the fragrance release.
Storage Conditions	Store in a cool, dry, and light-resistant place; avoid high-temperature or humid environments; store unopened in a sealed container to prevent the essential oil from evaporating prematurely.
Cautions	1. Use with caution if you have an allergy to lavender essential oil or are prone to skin sensitivity; 2. For external use only on fabric surfaces; do not ingest, and avoid contact with the eyes, mouth, or nasal mucosa.
