1: Xue Dakui Original Flavor Large Sunflower Seeds

1.Product Overview

No additives are used during cultivation. The seeds are processed through a five-step roasting process, carefully selected for size, kernel quality and appearance, and hand-sorted to remove empty shells and grit.

2. Product Specifications and Ingredients

Product Specifications	227 g
Ingredients	Sunflower Seeds (≥99%), edible salt (≤1%)

3. Direction for use

How to Consume	Open the package, remove shells, and eat (children should eat under adult supervision)
Storage Conditions	Store in a cool, ventilated, and dry place.
Precautions	Allergen Information: This production line also processes products containing peanuts and peanut products, as well as tree nuts and nut-based products.

2: Xue Dakui Mixed Flavor Large Sunflower Seeds

1.Product Overview

No additives are used during cultivation. The seeds are processed through a five-step roasting process, carefully selected for size, kernel quality and appearance, and hand-sorted to remove empty shells and grit.

2. Product Specifications and Ingredients

Product Specifications	227 g
Ingredients	Sunflower Seeds ($\geq 90\%$), edible salt, Spices, Food Additives (Sodium Cyclamate, Acesulfame Potassium, Ethyl Maltol, Sucralose, Compound Antioxidant [TBHQ, Mono- and Diglycerides of Fatty Acids, Edible Glucose]).

3. Direction for use

How to Consume	Open the package, remove shells, and eat (children should eat under adult supervision).
Storage Conditions	Store in a cool, ventilated, and dry place.
Precautions	Allergen Information: This production line also processes products containing peanuts and peanut products, as well as tree nuts and nut-based products.

3: Xue Dakui Five-Spice Flavor Large Sunflower Seeds

1. Product Overview

No additives are used during cultivation. The seeds are processed through a five-step roasting process, carefully selected for size, kernel quality and appearance, and hand-sorted to remove empty shells and grit.

2. Product Specifications and Ingredients

Product Specifications	378 g
Ingredients	Sunflower Seeds, edible salt, Star Anise, Sichuan Pepper, Cinnamon, Fennel, Bay Leaf.

3. Direction for use

How to Consume	Open the package, remove shells, and eat (children should eat under adult supervision).
Storage Conditions	Store in a cool, ventilated, and dry place.
Precautions	Allergen Information: This production line also processes products containing peanuts and peanut products, as well as tree nuts and nut-based products.

4: Xue Dakui Boiled Large Sunflower Seeds

1. Product Overview

No additives are used during cultivation. The seeds are processed through a five-step roasting process, carefully selected for size, kernel quality and appearance, and hand-sorted to remove empty shells and grit. Prepared using a boiling process to enhance flavor and create a lightly roasted, savory aroma.

2. Product Specifications and Ingredients

Product Specifications	378 g
Ingredients	Sunflower Seeds, edible salt, Star Anise, Sichuan Pepper, Cinnamon, Fennel, Bay Leaf.

3. Direction for use

How to Consume	Open the package, remove shells, and eat (children should eat under adult supervision).
Storage Conditions	Store in a cool, ventilated, and dry place.
Precautions	Allergen Information: This production line also processes products containing peanuts and peanut products, as well as tree nuts and nut-based products.

5: Xue Dakui Caramel Flavor Large Sunflower Seeds

1. Product Overview

No additives are used during cultivation. The seeds are processed through a five-step roasting process, carefully selected for size, kernel quality and appearance, and hand-sorted to remove empty shells and grit.

2. Product Specifications and Ingredients

Product Specifications	320 g
Ingredients	Sunflower Seeds ($\geq 78\%$), white sugar, edible salt, Food Additives (Sodium Saccharin, Acesulfame Potassium, Sucralose, Ethyl Maltol, Sodium Cyclamate, Compound Antioxidant [TBHQ, Mono- and Diglycerides of Fatty Acids, Edible Glucose]), Spices, Edible Flavoring.

3. Direction for use

How to Consume	Open the package, remove shells, and eat (children should eat under adult supervision).
Storage Conditions	Store in a cool, ventilated, and dry place.
Precautions	Allergen Information: This production line also processes products containing peanuts and peanut products, as well as tree nuts and nut-based products.

6: Xue Dakui Garlic Flavor Peanuts

1. Product Overview

These peanuts are sourced from Xueji's own professional planting bases in Inner Mongolia and Northeast China. Advanced production lines with multiple roasting and sorting processes carefully control every production step, ensuring standardized quality through technology.

2. Product Specifications and Ingredients

Product Specifications	300 g
Ingredients	Peanuts ($\geq 88\%$), edible salt, Garlic, Food Additives (Sodium Cyclamate, Acesulfame Potassium, Ethyl Maltol, Compound Antioxidant [TBHQ, Mono- and Diglycerides of Fatty Acids, Edible Glucose]), Food Flavoring.

3. Direction for use

How to Consume	Open the bag, remove shells, and eat (children should eat under adult supervision).
Storage Conditions	Store in a cool, ventilated, and dry place.
Precautions	After opening, reseal and store leftovers; do not leave opened for a long time to preserve texture.

7: Xue Dakui Original Flavor Peanuts

1. Product Overview

These peanuts are sourced from Xueji's own professional planting bases in Inner Mongolia and Northeast China. Advanced production lines with multiple roasting and sorting processes carefully control every production step, ensuring standardized quality through technology.

2. Product Specifications and Ingredients

Product Specifications	300 g
Ingredients	Peanuts ($\geq 99\%$), edible salt ($\leq 1\%$).

3. Direction for use

How to Consume	Open the bag, remove shells, and eat (children should eat under adult supervision).
Storage Conditions	Store in a cool, ventilated, and dry place.
Precautions	After opening, reseal and store leftovers; do not leave opened for a long time to preserve texture.

8: Xueji Roasted Organic Chestnut Kernels

1. Product Overview

Sourced from the core production area of the Yanshan Mountains, these chestnuts are sweet, soft, and glutinous, leaving a lingering fragrance. With consistent year-round quality, you can enjoy the taste of autumn in every season.

2. Product Specifications and Ingredients

Product Specifications	100 g
Ingredients	Organic chestnut kernels (100%)

3. Direction for use

How to Consume	Ready to eat upon opening.
Storage Conditions	Store away from heat sources, at room temperature away from light. Refrigerate and consume promptly after opening.
Precautions	Water droplets inside the package do not affect quality. Consume as soon as possible after opening to avoid spoilage from improper storage.

9: Xueji Roasted Oat-Coffee Flavor Corn Balls

1. Product Overview

The surface of these corn balls is dark brown or blackish-brown (coated with coffee powder), And the corn balls are evenly shaped and fully puffed. Using a non-fried puffing process and a thin outer coating of sugar syrup and coffee powder, the interior is airy. The rich coffee aroma and slightly bitter taste balance the sweetness of the sugar coating, producing a "crisp" bite with rich layers and a strong corn/grain aroma.

2. Product Specifications and Ingredients

Product Specifications	80 g
Ingredients	Corn (puffed base), Sugar, Oats, Coffee Powder (or Coffee Extract).

3. Direction for use

How to Consume	Ready to eat upon opening; no preparation needed.
Storage Conditions	Keep sealed in a cool, dry place.
Precautions	Texture softens and loses crispness when exposed to moisture; consume soon after opening or keep well sealed.

10: Xueji Roasted Coconut Latte Flavor Corn Balls

1.Product Overview

The surface of these corn balls is light brown, possibly with fine shredded coconut particles, and the corn balls are evenly shaped and fully puffed. Using a non-fried process, the trendy "Fresh Coconut Latte Flavor" flavor is blended into a snack. The slight bitterness of coffee, the fresh aroma of coconut, and the grain fragrance of corn are skillfully combined. The texture is crispy, with a thin, even outer coating of sugar, moderate sweetness, melting in the mouth without sticking to teeth.

2. Product Specifications and Ingredients

Product Specifications	80 g
Ingredients	Corn (puffed base), Sugar, Coffee Powder, Coconut Milk Powder (or coconut flavoring ingredients).

3. Direction for use

How to Consume	Ready to eat upon opening; no preparation needed.
Storage Conditions	Keep sealed in a cool, dry place.
Precautions	Texture softens and loses crispness when exposed to moisture; consume soon after opening or keep well sealed.

11: Xueji Roasted Toffee Flavor Corn Balls

1. Product Overview

These corn balls are evenly coated with a coffee-colored toffee syrup, displaying an appealing golden color, with plump grains. Using a non-fried puffing process, the interior has a honeycomb hollow structure. Authentic toffee syrup firmly wraps the corn balls; the first bite is a perfect combination of rich caramel sweetness and the natural fragrance of corn/grain. The texture is extremely crispy, melts in the mouth, and does not feel greasy.

2. Product Specifications and Ingredients

Product Specifications	80 g
Ingredients	Corn (puffed base), white sugar, Glucose Syrup, Butter, Condensed Milk, etc.

3. Direction for use

How to Consume	Ready to eat upon opening; no preparation needed.
Storage Conditions	Keep sealed in a cool, dry place.
Precautions	Texture softens and loses crispness when exposed to moisture; consume soon after opening or keep well sealed.

12: Xueji Roasted Small Purple Sweet Potatoes (Canned Sweet Potato Product)

1. Product Overview

These purple sweet potatoes are sourced from Shandong. Slow-baked under controlled temperature, they retain a soft, glutinous, sweet potato flavor.

2. Product Specifications and Ingredients

Product Specifications	100 g
Ingredients	Purple Sweet Potato, white sugar.

3. Direction for use

How to Consume	Ready to eat upon opening.
Storage Conditions	Store at room temperature away from light. After opening, refrigerate or consume promptly.
Precautions	Water droplets inside the package do not affect quality. This product is ready to eat; seal leftovers and refrigerate. Do not store opened for a long time to preserve texture.

13: Xueji Roasted Small Red Sweet Potatoes (Canned Sweet Potatoes)

1. Product Overview

These sweet potatoes are sourced from Shandong. Slow-baked under controlled temperature, they retain a soft, glutinous, sweet potato flavor.

2. Product Specifications and Ingredients

Product Specifications	100 g
Ingredients	Sweet Potato, white sugar.

3. Direction for use

How to Consume	Ready to eat upon opening
Storage Conditions	Store at room temperature away from light. After opening, refrigerate or consume promptly.
Precautions	Water droplets inside the package do not affect quality. This product is ready to eat; seal leftovers and refrigerate. Do not store opened for a long time to preserve texture.

14: Xueji Roasted Amber Walnut Kernels

1. Product Overview

Made with selected large walnut kernels from Xinjiang. The lightly sweet coating is refreshing rather than greasy, and it does not stick to the hands.

2. Product Specifications and Ingredients

Product Specifications	100 g
Ingredients	Walnut Kernels ($\geq 86\%$), white sugar, Maltose Syrup, vegetable oil.

3. Direction for use

How to Consume	Ready to eat upon opening (children should eat under adult supervision).
Storage Conditions	Store in a cool, ventilated, and dry place.
Precautions	An oxygen absorber is included in the package; the absorber is not edible.

15: Guosheng Wanwu Almond Kernels

1. Product Overview

The almonds have a natural color and aroma, with large, plump kernels selected through a grading process. They offer a rich nutty flavor and a crisp texture.

2. Product Specifications and Ingredients

Product Specifications	320 g
Ingredients	Almond Kernels ($\geq 93\%$), edible salt, white sugar.

3. Direction for use

How to Consume	Ready to eat upon opening (children should eat under adult supervision).
Storage Conditions	Store in a cool, ventilated, and dry place.
Precautions	An oxygen absorber is included in the package; the absorber is not edible.

16: Guosheng Wanwu Pistachios

1. Product Overview

Selected premium natural-colored pistachios with a simple ingredient list. Naturally split open, modern roasting brings out the nut's delicate fragrance.

2. Product Specifications and Ingredients

Product Specifications	258 g
Ingredients	Pistachios ($\geq 98\%$), white sugar, edible salt, Food Additives (Sodium Cyclamate, Acesulfame Potassium).

3. Direction for use

How to Consume	Ready to eat upon opening (children should eat under adult supervision).
Storage Conditions	Store in a cool, ventilated, and dry place.
Precautions	An oxygen absorber is included in the package; the absorber is not edible.

17: Xixiaying Chestnut Kernels

1. Product Overview

Produced in the foothills of the Yanshan Mountains, where the soil is rich in minerals and the large day-night temperature difference promotes sugar accumulation, creating the unique sweet flavor of Xixiaying chestnuts. Their shells are purple-red and shiny, kernels are beige-yellow, sweet and aromatic, rich in protein, total sugars, vitamin C, and a variety of minerals.

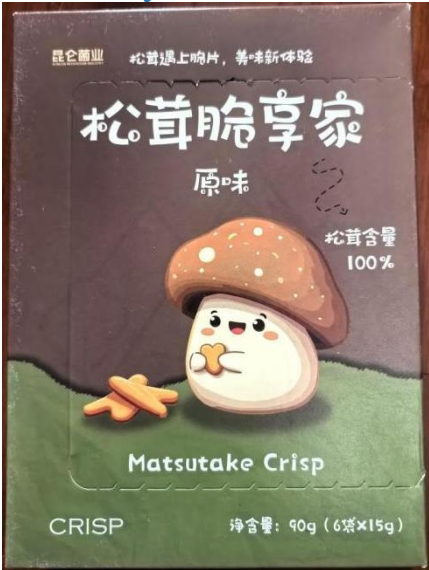

2. Product Specifications and Ingredients

Product Specifications	40 g/45 g
Ingredients	Chestnut Kernels.

3. Direction for use

How to Consume	Ready to eat upon opening.
Storage Conditions	Store at room temperature in a cool, dark place away from light.
Precautions	Consume as soon as possible after opening. Water droplets inside the bag due to temperature changes do not affect quality. If the packaging is damaged during transport/storage causing quality changes, do not eat it and contact the local dealer immediately for exchange.

18: Kunlun Fungus Industry Matsutake Crispy Original Flavor

1. Product Overview

This is a snack highlighting natural mushroom flavor. Through low-temperature dehydration technology, it maximally retains the rich original aroma of matsutake, with a crispy texture.

2. Product Specifications and Ingredients

Product Specifications	90 g (6 packs × 15 g)
Ingredients	Matsutake, Refined vegetable oil, white sugar, edible salt, Edible Vinegar.

3. Direction for use

How to Consume	Consume immediately after opening.
Storage Conditions	Store below 25°C, avoid direct sunlight or high temperatures; keep in a cool, dry place.
Precautions	Consume as soon as possible after opening. After removing from original packaging, store in a cool, dry place, away from high heat and humidity. Natural color variations due to different harvest periods are normal. Not recommended for children under 3 years of age. Children aged 3–6 should consume the product under adult supervision and chew it thoroughly. The oxygen absorber inside the package is not edible; do not open or consume it.

19: Wanshuncheng Tomato Paste

1. Product Overview

A semi-finished raw material made from fresh tomatoes that are peeled, crushed, refined, and concentrated. Thick consistency, deep red color, extremely high lycopene content, with a rich, pure tomato flavor.

2. Product Specifications and Ingredients

Product Specifications	70 g
Ingredients	Concentrated Tomato Paste, Water.

3. Direction for use

How to Consume	Ready to eat upon opening. Also suitable for cooking dishes such as tomato beef, tomato fish, tomato shrimp, etc.
Storage Conditions	To be kept in a cool, dry place; refrigerate after opening.
Precautions	Not specified.

20: Apple & Elderberry Kombucha

1. Product Overview

This product uses jasmine green tea and white tea as the tea base, with concentrated apple juice and strawberry juice forming the main body, giving the drink layered tea fragrance and berry flavors. white sugar and erythritol are used to adjust sweetness, and it contains carbon dioxide for a refreshing, slightly sparkling mouthfeel.

2. Product Specifications and Ingredients

Product Specifications	300 ml
Ingredients	Water, Concentrated Apple Juice, Concentrated Strawberry Juice, white sugar, Food Starter Culture [Lactobacillus curvatus (added at 1×10^9 CFU/L), Limosilactobacillus reuteri (added at 1×10^9 CFU/L), Lactiplantibacillus plantarum (added at 1×10^9 CFU/L)], Jasmine Green Tea, White Tea (7g/L), Elderberry Juice Concentrate, Erythritol, Carbon Dioxide.

3. Direction for use

How to Consume	Ready to drink upon opening.
Storage Conditions	Avoid direct sunlight or high temperatures; refrigerated tastes better.
Precautions	Sediment, if any, is natural tea or a small amount of herbal ingredients and does not indicate quality issues.

21: Jian Tianxia Hidden Tea Cup – Green Tea (Customized)

1. Product Overview

This is a disposable disposable paper cup with tea sealed in the bottom compartment with tea sealed at the bottom. The tea leaves originate from the core tea region of Jieyang, Chaoshan, Guangdong. Leveraging the excellent local ecological environment and traditional tea-making techniques, a pre-portioned sealed tea, filter-screen encasing, and cut-leaf processing is used to ensure strong aroma, mellow flavor, and a pronounced lingering sweetness, truly locking in the authentic taste of Chaoshan tea. The green tea tastes fresh and brisk, with a delicate fragrance and subtle chestnut aroma; the liquor is light yellow-green, clear. It can a refreshing choice after rich foods and refresh the mind, suitable for office, meetings, etc.

2. Product Specifications and Ingredients

Product Specifications	Bag of 20 pieces; Tube of 10 pieces. Common cup capacity: 250–280 ml.
Ingredients	Tea Base: Pan-fired Green Tea.

3. Direction for use

How to Consume	Pour boiling water (above 90°C) to about one-third of the cup, rinse the tea (optional). Add more water until it is about 70-80% full. Let it steep for 30 seconds to 1 minute, then it is ready to drink.
Storage Conditions	Keep sealed, dry, ventilated, and clean; protect from moisture and odors.
Precautions	None stated

22: Jian Tianxia Hidden Tea Cup – Dancong Tea (Customized)

1. Product Overview

This is a disposable disposable paper cup with tea sealed in the bottom compartment with tea sealed at the bottom. The tea leaves originate from the core tea region of Jieyang, Chaoshan, Guangdong. Leveraging the excellent local ecological environment and traditional tea-making techniques, a pre-portioned sealed tea, filter-screen encasing, and cut-leaf processing is used to ensure strong aroma, mellow flavor, and a pronounced lingering sweetness, truly locking in the authentic taste of Chaoshan tea. The flavor is highly aromatic, mellow, with a strong sweet aftertaste, and subtle floral notes (Honey Orchid / Yellow Gardenia fragrance); the liquor is golden yellow and bright.

2. Product Specifications and Ingredients

Product Specifications	Bag of 20 pieces; Tube of 10 pieces. Common cup capacity: 250–280 ml.
Ingredients	Tea Base: Fenghuang Dancong.

3. Direction for use

How to Consume	Pour boiling water (above 90°C) to about one-third of the cup, rinse the tea (optional). Add more water until it is about 70-80% full. Let it steep for 30 seconds to 1 minute, then it is ready to drink.
Storage Conditions	Keep sealed, dry, ventilated, and clean; protect from moisture and odors.
Precautions	None stated

23: Jian Tianxia Hidden Tea Cup – Jasmine Tea (Customized)

1. Product Overview

This is a disposable disposable paper cup with tea sealed in the bottom compartment with tea sealed at the bottom. The tea leaves originate from the core tea region of Jieyang, Chaoshan, Guangdong. Leveraging the excellent local ecological environment and traditional tea-making techniques, a pre-portioned sealed tea, filter-screen encasing, and cut-leaf processing is used to ensure strong aroma, mellow flavor, and a pronounced lingering sweetness, truly locking in the authentic taste of Chaoshan tea. The flavor is fresh and brisk, sweet, with a rich jasmine fragrance; the liquor is light yellow and bright, suitable for business receptions and similar settings.

2. Product Specifications and Ingredients

Product Specifications	Bag of 20 pieces; Tube of 10 pieces. Common cup capacity: 250–280 ml.
Ingredients	Tea Base: Green tea scented with fresh jasmine flowers

3. Direction for use

How to Consume	Pour boiling water (above 90°C) to about one-third of the cup, rinse the tea (optional). Add more water until it is about 70-80% full. Let it steep for 30 seconds to 1 minute, then it is ready to drink.
Storage Conditions	Keep sealed, dry, ventilated, and clean; protect from moisture and odors.
Precautions	None stated

24: Qimengkang Mulberry Puree

1. Product Overview

Made from fruit picked at approximately 90% ripeness and processed using low-temperature fresh pressing. It has a naturally fruity flavor and may contain naturally occurring fruit pulp. Mulberry puree improves blood supply to skin and scalp, nourishing skin and promoting dark hair, delaying aging; nourishes Yin and blood, generates fluids and moistens dryness, alleviates liver/kidney Yin and blood deficiency; relieves eye fatigue and dryness, protecting eyesight.

2. Product Specifications and Ingredients

Product Specifications	Pouch 300ml (30 ml × 10 pouches), Gift Box Spout Pouch 1500 ml (150 ml × 10 pouches), Spout Pouch 150 ml/pouch, Bottle 500ml (50 ml × 10 bottles).
Ingredients	Fresh Mulberry Fruit.

3. Direction for use

How to Consume	Drink soon after opening. Chilled tastes better. Recommended 1-2 pouches daily.
Storage Conditions	Store at room temperature in a cool, dry place.
Precautions	Slight sediment is fruit pulp, shake well before drinking. Minor variations in taste and color between batches are normal for puree products; safe to drink.

25: Qimengkang Aronia Berry Puree

1. Product Overview

Made from aronia berries, a naturally dark-colored berry containing anthocyanins. The product has a naturally tart fruit flavor. Anthocyanin content: 2,144 mg per 100 g, according to the applicable product test report. It can help regulate blood sugar, enhance the immune system, and is a preferred ally for weight management. The rich flavonoids in Aronia are potent antioxidants, effectively eliminating oxygen free radicals in the body.

2. Product Specifications and Ingredients

Product Specifications	Pouch 300 ml (30 ml × 10 pouches), Bottle 500 ml (50 ml × 10 bottles).
Ingredients	Fresh Aronia Berry Fruit.

3. Direction for use

How to Consume	Drink soon after opening. Chilled tastes better.
Storage Conditions	Store at room temperature in a cool, dry place
Precautions	Slight sediment is fruit pulp, shake well before drinking. Minor batch variations in taste and color are normal.
Not Suitable For	Pregnant women, breastfeeding mothers, and infants.
Recommended Maximum Intake	Aronia berry (Aronia melanocarpa) recommended intake ≤10g/day (based on fresh juice).

26: Qimengkang Bitter Gourd Puree

1. Product Overview

Made from 100% bitter gourd juice. Produced by cold pressing and aseptic filling without concentration or reconstitution. No added colors, sucrose, flavorings or preservatives.

2. Product Specifications and Ingredients

Product Specifications	Pouch 300 ml (30 ml × 10 pouches).
Ingredients	Fresh Bitter Gourd.

3. Direction for use

How to Consume	Drink soon after opening. Chilled tastes better.
Storage Conditions	Store at room temperature in a cool, dry place.
Precautions	Slight sediment is plant pulp, shake well before drinking. Minor batch variations in taste and color are normal.

27: Qimengkang Red Raspberry Puree

1. Product Overview

This product is meticulously crafted from freshly harvested red raspberry berries; the raspberries themselves possess a rich, sweet flavor, and the product utilizes pure, original berry juice in its authentic raw state. After being left undisturbed for a period of time, a distinct stratification occurs, with the juice—along with various nutrients—floating on the surface.

2. Product Specifications and Ingredients

Product Specifications	Pouch 300 ml (30 ml × 10 pouches).
Ingredients	Fresh Red Raspberry Fruit.

3. Direction for use

How to Consume	Drink soon after opening. Chilled tastes better.
Storage Conditions	Store at room temperature in a cool, dry place.
Precautions	Slight sediment is fruit pulp, shake well before drinking. Minor batch variations in taste and color are normal.

28: Qimengkang Blueberry Puree

1. Product Overview

Made from Greater Khingan Range blueberries, rich in polyphenols, anthocyanins, and ellagic acid, etc. It can inhibit cancer cell enzyme activity, relieve eye fatigue, improve night vision, aid in natural skin lightening, and help regulate human muscle and blood pressure functions.

2. Product Specifications and Ingredients

Product Specifications	Pouch 300ml (30 ml × 10 pouches), Gift Box Spout Pouch 1500 ml (150 ml × 10 pouches), Spout Pouch 150 ml/pouch, Bottle 500 ml (50 ml × 10 bottles).
Ingredients	Fresh Blueberry Fruit.

3. Direction for use

How to Consume	Drink soon after opening. Chilled tastes better.
Storage Conditions	Store at room temperature in a cool, dry place.
Precautions	Slight sediment is fruit pulp, shake well before drinking. Minor batch variations in taste and color are normal.

29: Qimengkang Black Goji Berry Puree

1. Product Overview

Selects Qinghai black goji berries, known for their unique natural environment and high anthocyanin content. Low-temperature fine cell-crushing technology is used to maximally retain the freshness and various trace elements, achieving a truly healthy puree that is "superior origin, fresh product, additive-free, and easily absorbed."

2. Product Specifications and Ingredients

Product Specifications	Pouch 300 ml (30 ml × 10 pouches), Bottle 500 ml (50 ml × 10 bottles).
Ingredients	Fresh Black Goji Berry Fruit.

3. Direction for use

How to Consume	Drink soon after opening. Chilled tastes better.
Storage Conditions	Store at room temperature in a cool, dry place.
Precautions	Slight sediment is fruit pulp, shake well before drinking. Minor batch variations in taste and color are normal.

30: Qimengkang Rosa Roxburghii Puree

1. Product Overview

Selected from large Rosa roxburghii fruits grown in Longli, Guizhou. The fruit has thick flesh, a distinctive aroma, and the fruit naturally contains vitamin C and vitamins B1, B2, E, and K1, as well as other nutrients. It can aid digestion, protect the gastric mucosa, and lower cholesterol.

2. Product Specifications and Ingredients

Product Specifications	Pouch 300 ml (30 ml × 10 pouches), Bottle 500 ml (50 ml × 10 bottles).
Ingredients	Fresh Rosa Roxburghii Fruit.

3. Direction for use

How to Consume	Drink soon after opening. Chilled tastes better.
Storage Conditions	Store at room temperature in a cool, dry place.
Precautions	Slight sediment is Rosa Roxburghii pulp, shake well before drinking. Minor batch variations in taste and color are normal.
Not Suitable For	Pregnant women, breastfeeding mothers, and infants.

31: Qimengkang Celery Puree

1. Product Overview

Made from celery sourced from Xiji, Ningxia, using physical pressing, instant sterilization, and direct filling without concentration or reconstitution. The process preserves the natural flavor of celery. People with low blood pressure should avoid consuming this product.

2. Product Specifications and Ingredients

Product Specifications	Pouch 300 ml (30 ml × 10 pouches), Bottle 500 ml (50 ml × 10 bottles).
Ingredients	100% Celery Juice.

3. Direction for use

How to Consume	Drink soon after opening. Chilled tastes better.
Storage Conditions	Store at room temperature in a cool, dry place.
Precautions	Slight sediment is plant pulp, shake well before drinking. Minor batch variations in taste and color are normal. Not suitable for individuals with hypotension (low blood pressure).

32: Qimengkang Goji Berry Puree

1.Product Overview

Selects goji berries meeting pharmacopoeia standards. Low-temperature fine cell-crushing technology is used to preserve the activity of the goji berries. The puree is rich in over 30 nutrients, including goji polysaccharides, vitamins, lutein, carotene, and betaine.

2. Product Specifications and Ingredients

Product Specifications	Pouch 300 ml (30 ml × 10 pouches), Bottle 500 ml (50 ml × 10 bottles).
Ingredients	Fresh Goji Berry Fruit.

3. Direction for use

How to Consume	Drink soon after opening. Chilled tastes better.
Storage Conditions	Store at room temperature in a cool, dry place.
Precautions	Slight sediment is fruit pulp, shake well before drinking. Minor batch variations in taste and color are normal.

33: Qimengkang Rose Flower Puree Beverage

1. Product Overview

Made from double-petal red roses sourced from Yunnan. Low-temperature fresh pressing is used to preserve the natural rose aroma and flavor. The beverage has a delicate floral aroma and a refreshing taste.

2. Product Specifications and Ingredients

Product Specifications	Pouch 300 ml (30 ml × 10 pouches).
Ingredients	Double-Petal Rose Flower, purified water, VC, Fructo-oligosaccharide.

3. Direction for use

How to Consume	Drink soon after opening. Chilled tastes better.
Storage Conditions	Store at room temperature in a cool, dry place.
Precautions	Slight sediment is plant pulp, shake well before drinking. Minor batch variations in taste and color are normal.

34: Qimengkang Hawthorn Six-Ingredient Puree

1. Product Overview

Made with seasonal hawthorn and the ingredients listed on the package. HPP (High-Pressure Processing) is used during processing. It has a naturally sweet-and-sour flavor.

2. Product Specifications and Ingredients

Product Specifications	Pouch 300 ml (30 ml × 10 pouches).
Ingredients	Hawthorn, Chicken Gizzard Lining, Poria, Chinese Yam, Tangerine Peel, Apple, Honey.

3. Direction for use

How to Consume	Drink soon after opening. Chilled tastes better
