1: Shenjiangrong Cistanche & Cordyceps Liquor

1. Product Overview

This product selects high-quality Cistanche from Kashgar, Xinjiang (renowned as the "Hirsutella sinensis") and top-grade "Hirsutella sinensis" Cordyceps engineered strains (fermentation extract) from Tibet, known for dual Yin-Yang replenishment. Using a Maotai-flavour liquor as the base, modern biological fermentation and extraction technologies are applied to infuse the essence of the herbs into the liquor, resulting in a smooth texture where medicinal aroma blends with the sauce fragrance. It contains various amino acids (including 8 essential ones), selenium, enzymes, and other active substances.

2. Product Functions

Product Functions	It can replenish energy, relieve fatigue, improve sleep, and assist in regulating bodily functions, suitable for business professionals pursuing health and wellness.
-------------------	---

3. Product Specifications and Ingredients

Product Specifications	100 ml/bottle
Ingredients	Liquor (Water, Sorghum, Wheat), Cistanche Extract, Cordyceps Militaris Fermentation Extract (or Cordyceps Fermentation Extract).

4. Direction for use

How to Consume	Drink directly
Storage Conditions	Store in a cool, dry, well-ventilated place, away from direct sunlight
Precautions	1. Contraindicated for minors, pregnant women, and breastfeeding mothers. 2. Contraindicated for those with alcohol allergies. 3. Use with caution if you have liver dysfunction. 4. Use with caution if you have Yin deficiency with fire exuberance (symptoms include hot palms/soles, dry mouth/tongue), as Cistanche and Cordyceps are warm tonics.

2: Shenjiangrong Cistanche & Tangerine Peel Tea

1. Product Overview

This product combines the "Kidney-warming and Yang-tonifying" properties of Cistanche with the "Qi-regulating and dampness-drying" effects of Tangerine Peel. It removes the strong medicinal taste, offering a mellower, smoother flavour with a refreshing tangerine peel aroma.

2. Product Functions

Product Functions	It has effects such as tonifying kidney and replenishing essence, moistening intestines to relieve constipation, regulating Qi and strengthening the spleen.
-------------------	--

3. Product Specifications and Ingredients

Product Specifications	120 g (10 g × 12 bags)/box
Ingredients	Cistanche Slices, Tangerine Peel Shreds, Red Date Slices, Goji Berries.

4. Direction for use

How to Consume	Place one bag into a pot, add water, boil for 3-5 minutes. It can be repeatedly boiled or steeped in a thermos.
Storage Conditions	Store in a cool, dry, well-ventilated place, away from direct sunlight and moisture.
Cautions	• Cannot replace medicine. Based on the maximum daily intake of Cistanche ($\leq 6\text{g/day}$). • Use with caution in individuals with Yin deficiency and fire exuberance (symptoms include hot palms/soles, dry mouth, severe dry stool) as Cistanche is warm in nature. • Not suitable for pregnant women, breastfeeding mothers, and children. • Not suitable during colds/fever or diarrhea. • Contraindicated for those allergic to any ingredients.

3: Shenjiangrong Baoge Compressed Candy

1. Product Overview

This product is in a pressed candy format, ready-to-eat upon opening, eliminating the need for decoction, with relatively good absorption.

2. Product Functions

Product Functions	Effects include boosting energy, enhancing function, and anti-fatigue. It is suitable for men pursuing a high quality of life who need to improve their vitality.
-------------------	---

3. Product Specifications and Ingredients

Product Specifications	2 g (1 g × 1 piece × 2 bottles)
Ingredients	Cistanche Powder, Burdock Root Powder, Reishi Mushroom Powder, Chinese Yam Powder, Cordyceps Militaris Powder, Goji Berry Powder, Eucommia Male Flower, Apple Powder, Ginseng (Artificially Cultivated under 5 years), Ginger Powder, Cinnamon Powder, Sea Cucumber Peptide, Oyster Peptide, Zinc Gluconate.

4. Direction for use

How to Consume	Take 1 piece daily, swallow with warm water.
Storage Conditions	Store in a cool, dry place
Cautions	- Based on the maximum daily intake of Cistanche ($\leq 6\text{g/day}$), consumption should not exceed 3 pieces per person per day. - Not suitable for infants, young children, individuals allergic to edible fungi, pregnant women, and breastfeeding mothers.

4: Cabernet Sauvignon Dry Red Wine

1. Product Overview

Produced in the flood alluvial fan edge of the Huola Mountain at the southern foot of the Tianshan Mountains in Xinjiang, at an average altitude of 1100 meters. The soil texture is mainly coarse sand, fine sand, and a small amount of gravel, providing high permeability and oxidation. Made from selected high-quality Cabernet Sauvignon grapes, handcrafted following traditional French winemaking techniques combined with modern temperature-controlled fermentation.

2. Product Functions

Product Functions	Classic Bordeaux-style blend, featuring a fragrant, sweet, full-bodied, and mellow taste. The wine carries elegant floral and oak barrel aromas, offering a rich, layered experience and a long finish after proper aeration.
-------------------	---

3. Product Specifications and Ingredients

Product Specifications	750 ml
Ingredients	Cabernet Sauvignon Grapes, Food Additive (Potassium Metabisulfite).

4. Direction for use

How to Consume	Due to the robust tannins of Cabernet Sauvignon, decanting is essential. Young wines: It is recommended to open the bottle in advance and pour into a decanter for 1-2 hours to allow the wine to breathe fully, softening tannins and releasing complex aromas. Aged wines: Decant for under 30 minutes to prevent over-oxidation and loss of delicate flavours.
Storage Conditions	Store horizontally or inverted at 12-14°C. A small amount of sediment is harmless
Cautions	If you plan to collect or not drink it for a short period, store the bottle horizontally in a dark, vibration-free, constant temperature (10-18°C) environment with appropriate humidity (60%-70%) to keep the cork moist and prevent air from entering the bottle and affecting wine quality.

5: NAG Bone Collagen Guar Fiber Solid Beverage

1. Product Overview

Guar fiber is a high-quality water-soluble dietary fiber. In this formula, it typically aids intestinal peristalsis, increases satiety, and helps regulate blood sugar and blood lipids, supporting the maintenance of digestive system health.

2. Product Functions

Product Functions	Helps repair cartilage, reduce joint wear, regulate gut flora, and is friendly to the intestinal barrier.
-------------------	---

3. Product Specifications and Ingredients

Product Specifications	150 g (5 g × 30 sachets)
Ingredients	Galactomannan (85%), Bovine Bone Collagen Peptide, N-Acetylglucosamine.

4. Direction for use

How to Consume	Take two sachets daily, one in the morning and one in the evening. Dissolve the contents in warm boiled water (approx. 50 ml) before consumption.
Storage Conditions	Keep sealed in a cool, dry place, away from direct sunlight and high temperature/high humidity environments.
Cautions	This product is a nutritional supplement and cannot replace medication for disease treatment. Not suitable for infants, pregnant women, and breastfeeding mothers.

6: Guar Fiber Dietary Fiber Powder Solid Beverage

1. Product Overview

This product is a dietary supplement focusing on "gentle intestinal regulation." It is a high-quality water-soluble dietary fiber extracted from natural guar beans. It is mild in nature and less likely to cause bloating, making it very suitable for those with sensitive stomachs.

2. Product Functions

Product Functions	Regulates gut flora (prebiotic effect), gently promotes bowel movements, assists in weight and blood sugar management.
-------------------	--

3. Product Specifications and Ingredients

Product Specifications	300 g/box
Ingredients	Stachyose, Galactomannan, Galacto-oligosaccharide.

4. Direction for use

How to Consume	Consume directly or mix thoroughly with 100 ml of warm water at 45°C.
Storage Conditions	Keep sealed in a cool, dry place, away from direct sunlight.
Cautions	Galacto-oligosaccharide (added at 1%), Galacto-oligosaccharide (Novel Food Ingredient) consumption $\leq$ 15g/day.

7: Nutrient Fiber Drink - Original flavour

1. Product Overview

The galactomannan in this product is derived from guar beans. It is a low-energy substance that helps maintain normal intestinal function.

2. Product Functions

Product Functions	Regulates gut flora (prebiotic effect), gently promotes bowel movements, assists in weight and blood sugar management.
-------------------	--

3. Product Specifications and Ingredients

Product Specifications	125 ml
Ingredients	Drinking Water, Galactomannan ($\geq 4\text{g}/100\text{ ml}$), Polydextrose, Zinc Gluconate, Vitamin B6, Vitamin B12.

4. Direction for use

How to Consume	Drink as soon as possible after opening. Heating to 40-50°C provides a better flavour.
Storage Conditions	Store in a cool, dry place, away from direct sunlight
Cautions	A slight amount of sediment is normal, drink safely. Do not drink if the bag leaks or is swollen. Do not heat the bag directly in a microwave; place it in hot water instead.

8: Nutrient Fiber Drink - Cucumber flavour

1. Product Overview

The galactomannan in this product is derived from guar beans. It is a low-energy substance that helps maintain normal intestinal function.

2. Product Functions

Product Functions	Regulates gut flora (prebiotic effect), gently promotes bowel movements, assists in weight and blood sugar management.
-------------------	--

3. Product Specifications and Ingredients

Product Specifications	125 ml
Ingredients	Drinking Water, Galactomannan ($\geq 4\text{g}/100\text{ ml}$), Deacidified and Decolorized Apple Juice Concentrate, Apple Juice Concentrate, Polydextrose, Frozen Cucumber Juice Concentrate ($\geq 1\text{g}/100\text{ ml}$), Lemon Juice Concentrate, Nicotinamide ($\geq 1.5\text{mg}/100\text{ ml}$).

4. Direction for use

How to Consume	Drink as soon as possible after opening.
Storage Conditions	Store in a cool, dry place, away from direct sunlight.
Cautions	A slight amount of sediment is normal, drink safely. Do not drink if the bag leaks or is swollen. Do not heat the bag directly in a microwave; place it in hot water instead.

9: Plant-Based Iron-Rich Gummies - Red Date flavour

1. Product Overview

This product features "high-efficiency iron supplementation" and a "plant-based base," while also catering to gut health as a leisure snack. Guar fiber is added as the plant matrix, providing a chewy texture and gently caring for the intestines while supplementing iron.

2. Product Functions

Product Functions	Regulates gut flora (prebiotic effect), gently promotes bowel movements, assists in weight and blood sugar management.
-------------------	--

3. Product Specifications and Ingredients

Product Specifications	36 g
Ingredients	Maltitol Syrup, Maltitol, Red Date Juice Concentrate (8%), Cherry Juice Concentrate (3%), Pectin, Galactomannan (1%), Sodium Iron EDTA, Ferrous Fumarate, Ferrous Glycinate, Vitamin C, Sodium Citrate, Heme Iron, Citric Acid, DL-Malic Acid, Coating Agent (Caprylic/Capric Triglyceride, Carnauba Wax).

4. Direction for use

How to Consume	Please chew before swallowing, do not swallow the product whole.
Storage Conditions	Keep sealed, away from light, store in a cool (recommended below 25°C), dry place.
Cautions	Children should consume under adult supervision. Not suitable for infants. Adhesion, deformation, or colour changes during storage are normal and do not affect quality.

10: Plant-Based Lutein Ester Gummies - Blueberry flavour

1. Product Overview

This product is a dietary supplement for eye health. Featuring a "plant-based" characteristic, it uses guar fiber (galactomannan) as the core colloid, providing a chewy texture while offering dietary fiber alongside eye nutrients.

2. Product Functions

Product Functions	Regulates gut flora (prebiotic effect), Eye-care support and blue-light filtering
-------------------	---

3. Product Specifications and Ingredients

Product Specifications	36g
Ingredients	Maltitol Syrup, Erythritol, Blueberry Juice Concentrate (8%), Purple Carrot Juice Concentrate (2%), Pectin, Galactomannan (1%), Blackcurrant Juice Concentrate (1%), Lutein Ester, Zeaxanthin, Vitamin C, Sodium Citrate, Citric Acid, DL-Malic Acid, Coating Agent (Caprylic/Capric Triglyceride, Carnauba Wax).

4. Direction for use

How to Consume	Chew, do not swallow whole.
Storage Conditions	Keep sealed, away from light, store in a cool (recommended below 25°C), dry place.
Cautions	Children should consume under adult supervision. Not suitable for infants. Adhesion, deformation, or colour changes during storage are normal and do not affect quality.

11: Dajia Weikang Kidney-Tonifying & Yang-Warming Liquor

1. Product Overview

This product adopts classic herbal compatibility wisdom combined with modern extraction technology. Its main components include Goat Penis (processed), Epimedium, Goji Berries, Cuscuta, Ginseng, Astragalus, Eucommia, Morinda, Cherokee Rose Fruit, Mulberry, Walnut Kernel, Black Sesame, Luo Han Guo, Honey, among over ten ingredients.

2. Product Functions

Product Functions	Warms and tonifies Kidney Yang. Used for dizziness, soreness/weakness of the lower back and knees, fatigue, aversion to cold/cold limbs, loose stools, and frequent nighttime urination due to liver and kidney depletion.
-------------------	--

3. Product Specifications and Ingredients

Product Specifications	Packaged in a soda-lime glass medicinal bottle, 125 ml per bottle.
Ingredients	Goat Penis (processed), Epimedium, Goji Berries, Cuscuta, Eucommia, Morinda, Ginseng, Astragalus, Cherokee Rose Fruit, Mulberry, Walnut Kernel, Black Sesame, Luo Han Guo. Excipients: Liquor, Honey.

4. Direction for use

How to Consume	Oral, 20 ml per dose, 3 times a day
Storage Conditions	Seal tightly and store in cool, dry and dark place at 10-30°C. Keep away from children, high-temperature environment and direct sunlight
Cautions	Contraindicated for children and pregnant women; contraindicated for those with Yin deficiency and fire exuberance; contraindicated for those with alcohol allergies, hypertension, and heart disease. Avoid spicy, cold, raw, and greasy foods. See full instructions for details.

12: Yiyoumeng Ready-to-Eat Lactic Acid Bacteria

1. Product Overview

This product utilizes triple guarantees: "Embedding Technology + Freeze-Drying Technology + Full Cold Chain Monitoring." It combines strains with prebiotics to effectively enhance active ingredients, ensuring probiotics survive stomach acid and release precisely in the intestines, improving absorption efficiency.

2. Product Functions

Product Functions	Helps regulate the nervous system, relieve anxiety, promote relaxation, thereby improving sleep quality.
-------------------	--

3. Product Specifications and Ingredients

Product Specifications	60 g (20 × 3 g)
Ingredients	Inactivated Lactic Acid Bacteria Powder (<i>Lactobacillus paracasei</i> L578, <i>Lactobacillus helveticus</i> L551, <i>Streptococcus salivarius</i> subsp. <i>thermophilus</i> S709) (0.5g/g), Erythritol, Xylitol, Fructo-oligosaccharide, <i>Streptococcus salivarius</i> subsp. <i>thermophilus</i> S709, <i>Lactiplantibacillus plantarum</i> LP45, Yeast Extract.

4. Direction for use

How to Consume	Consume directly or pour a sachet into warm water or milk. Consume after dinner, 2-4 sachets per day. Adjust quantity according to your condition. Do not exceed 8 sachets daily.
Storage Conditions	Store in a cool, dry place; Refrigeration is recommended for best quality.
Cautions	To avoid loss of live bacteria, reconstitution temperature should not exceed 37°C. Best taken half an hour after meals. If using antibiotics, wait at least two hours before consumption.

13: Junyangdao Ready-to-Eat Lactic Acid Bacteria

1. Product Overview

This product utilizes triple guarantees: "Embedding Technology + Freeze-Drying Technology + Full Cold Chain Monitoring." It combines strains with prebiotics to effectively enhance active ingredients, ensuring probiotics survive stomach acid and release precisely in the intestines, improving absorption efficiency.

2. Product Functions

Product Functions	Helps regulate the nervous system, relieve anxiety, promote relaxation, thereby improving sleep quality.
-------------------	--

3. Product Specifications and Ingredients

Product Specifications	40 g (20 × 2 g)
Ingredients	Lactitol, Fructo-oligosaccharide, Inulin ($\leq 10\%$), Orange Fruit Powder, Lactiplantibacillus plantarum LP45, Lactobacillus acidophilus La28, Lacticaseibacillus paracasei YMC1069, Bifidobacterium bifidum B11.

4. Direction for use

How to Consume	1-2 times daily, 1-2 sachets each time. Adjust quantity according to your condition. Consume directly or pour a sachet into warm water or milk.
Storage Conditions	Store in a cool, dry place; refrigeration is better.
Cautions	To avoid loss of live bacteria, reconstitution temperature should not exceed 37°C. Best taken half an hour after meals. If using antibiotics, wait at least two hours before consumption. Minor colour and flavour variations due to fruit powder are normal and safe for consumption.

14: Corn & Wheat Compound Peptide Drink

1. Product Overview

This product focuses on small molecule peptide nutrition. The core ingredients are corn peptides and wheat protein peptides, processed via enzymatic technology to break down large protein molecules into small peptides, making them easier for the body to absorb. Designed for health-conscious individuals needing efficient nutritional support.

2. Product Functions

Product Functions	Supports liver health, provides antioxidant and immune modulation effects, and aids post-exercise recovery and other physiological functions.
-------------------	---

3. Product Specifications and Ingredients

Product Specifications	50 ml / bottle
Ingredients	Water, Erythritol, Corn Peptide Powder, Xylitol, Wheat Protein Peptide Powder, Grapefruit Juice Concentrate, Luo Han Guo Juice Concentrate, Passion Fruit Juice Concentrate, Peach Juice, Polydextrose, Goji Berry Powder, Hovenia Dulcis Fruit Powder, Pueraria Root Powder, Turmeric, Acai Fruit Powder, Passion Fruit Powder, Pectin, Mogroside, Zinc Lactate, Lutein Ester Microencapsulated Powder, Nicotinamide, Vitamin B6, Vitamin B12, Sodium Iron EDTA, Citric Acid, Sodium Citrate, Edible flavour.

4. Direction for use

How to Consume	Ready to drink upon opening. Chilled tastes better.
Storage Conditions	Keep sealed in a cool, dry place.
Cautions	Slight suspension or sediment from natural fruit juice is normal; shake well before drinking. Contains cereal products with gluten. Based on Novel Food Ingredient regulations (Announcement No. 12, 2008): Lutein ester intake ≤ 12 mg/day. Do not consume more than 6 bottles of this product per day.

15: Qianzunchang Ready-to-Eat Lactic Acid Bacteria

1. Product Overview

This product utilizes triple guarantees: "Embedding Technology + Freeze-Drying Technology + Full Cold Chain Monitoring." It combines strains with prebiotics to effectively enhance active ingredients, ensuring probiotics survive stomach acid and release precisely in the intestines, improving absorption efficiency.

2. Product Functions

Product Functions	Probiotic strains work in the gut by competitively inhibiting harmful bacteria, regulating intestinal pH, enhancing intestinal barrier function, improving digestion and absorption, and relieving discomfort like bloating, constipation, or diarrhea.
-------------------	---

3. Product Specifications and Ingredients

Product Specifications	40 g (20 × 2 g)
Ingredients	Lactitol, Fructo-oligosaccharide, Stachyose, Mango Powder, Lactocaseibacillus rhamnosus LR519, Lactiplantibacillus plantarum LP45, Bifidobacterium bifidum B11, Lactobacillus helveticus L551, Pediococcus acidilactici SCFF996, Corn Oligopeptide Powder, Vitamin C.

4. Direction for use

How to Consume	Consume directly or pour a sachet into warm water or milk. 1-2 times daily, 1-2 sachets each time. Adjust quantity according to your condition.
Storage Conditions	Store in a cool, dry place; refrigeration is better.
Cautions	To avoid loss of live bacteria, reconstitution temperature should not exceed 37°C. Best taken half an hour after meals. If using antibiotics, wait at least two hours before consumption. Minor colour and flavour variations due to fruit powder are normal and safe for consumption. Corn oligopeptide intake ≤4.5g/day.

16: Chrysanthemum Multi-Vitamin Complex Tablets

1. Product Overview

This product is an endurance-type tablet. Its core lies in the combination of "Multi-Vitamins" and "Chrysanthemum." Through the scientific ratio of various vitamins, minerals, and plant active ingredients, it provides targeted nutritional support for endurance athletes such as middle and long-distance runners, swimmers, and cyclists.

2. Product Functions

Product Functions	Enhances athletic endurance, supplements key nutrients, provides antioxidant and recovery support, and supplements dietary fiber.
-------------------	---

3. Product Specifications and Ingredients

Product Specifications	0.8 g × 60 tablets
Ingredients	Chrysanthemum Powder (320mg/serving), Oat β -Glucan, Sorbitol, Rosehip Seed Extract (Food flavouring), Instant Green Tea Powder, Microcrystalline Cellulose, Compound Nutrient Fortifier (Zinc Oxide, Cholecalciferol, Cyanocobalamin, Thiamine Mononitrate, Riboflavin, Folic Acid, Sodium Selenite, Maltodextrin), Magnesium Stearate.

4. Direction for use

How to Consume	Swallow with warm water, 2 times daily, 1 tablet each time.
Storage Conditions	Keep sealed in a clean, cool, dry place, away from direct sunlight. Protect from moisture after opening.
Cautions	Contains the novel food ingredient Oat β -Glucan, intake $\leq 5\text{g/day}$.

17: Rosa Roxburghii Multi-Vitamin Complex Tablets

1. Product Overview

This product supplements with Rosa Roxburghii, Pueraria root, and B vitamins to enhance the body's antioxidant and metabolic functions, aiming to relieve physical exertion, protect the liver, and support stress endurance.

2. Product Functions

Product Functions	Protects the liver and accelerates alcohol metabolism, daily nutritional supplementation.
-------------------	---

3. Product Specifications and Ingredients

Product Specifications	0.8 g × 60 tablets
Ingredients	Rosa Roxburghii, Pueraria Root, Hovenia Dulcis Extract, Corn Oligopeptide, Dendrobium Officinale Powder, Vitamin B1, B2, B6, B12.

4. Direction for use

How to Consume	Swallow with warm water, 2 times daily, 1 tablet each time.
Storage Conditions	Keep sealed in a clean, cool, dry place, away from direct sunlight. Protect from moisture after opening.
Cautions	/

18: Multivitamin & Mineral Tablets

1. Product Overview

This product is an endurance-type tablet designed to supplement various vitamins and minerals required by the human body daily.

2. Product Functions

Product Functions	Enhances immunity, promotes bone health, improves energy metabolism, provides antioxidant and cellular protection.
-------------------	--

3. Product Specifications and Ingredients

Product Specifications	0.8 g × 60 tablets
Ingredients	Sorbitol, Calcium Carbonate, Microcrystalline Cellulose, Red Beet Powder, Vitamin C, Vitamin D, Zinc Oxide, Sodium Selenite, Vitamin E, Vitamin B1, Vitamin B2, Vitamin B6, Vitamin B12, Folic Acid, D-Calcium Pantothenate, D-Biotin, Magnesium Stearate.

4. Direction for use

How to Consume	Swallow with warm water, 2 times daily, 1 tablet each time.
Storage Conditions	Keep sealed in a clean, cool, dry place, away from direct sunlight. Protect from moisture after opening.
Cautions	/

19: Pute Health® Calcium, Vitamin D & Vitamin K Tablets

1. Product Overview

Suitable for adults, pregnant women, and lactating mothers who need to supplement calcium, vitamin D, and vitamin K.

2. Product Functions

Product Functions	Supplements Calcium, Vitamin D, Vitamin K.
-------------------	--

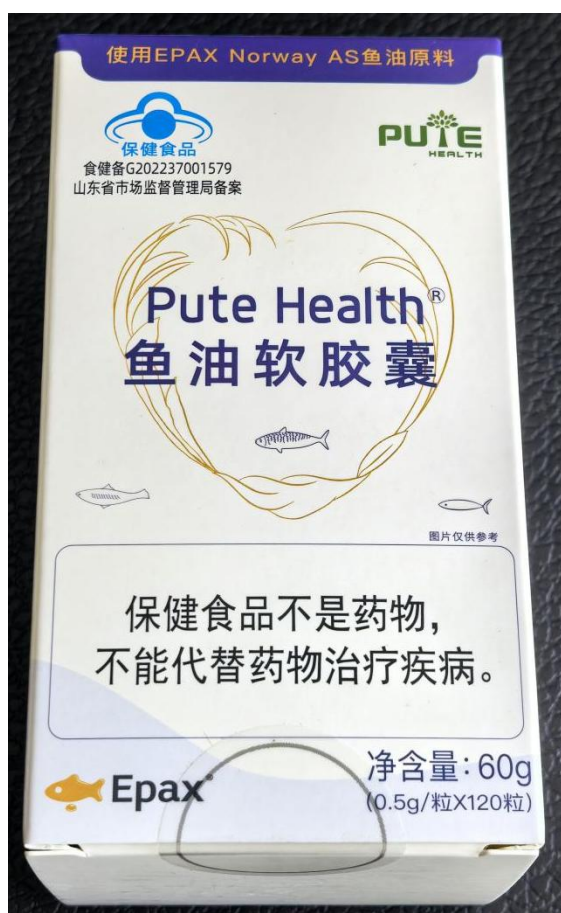

3. Product Specifications and Ingredients

Product Specifications	64.8 g (0.54 g/tablet × 120 tablets)
Ingredients	Calcium Carbonate, Vitamin K2 (Fermentation Method), Vitamin D3. Excipients: D-Mannitol, Edible Corn Starch, Citric Acid, Magnesium Stearate, Aspartame, Gum Arabic, Maltodextrin, White Sugar, Caprylic/Capric Triglyceride, Tricalcium Phosphate, dl- α -Tocopherol, Coating Premix (Pregelatinized Hydroxypropyl Starch, Sorbitol, Stearic Acid, Titanium Dioxide), Purified Water, Peach flavour.

4. Direction for use

How to Consume	Chew and consume. 3 times daily, 1 tablet each time.
Storage Conditions	Keep sealed, store at room temperature in a dry place, away from direct sunlight.
Cautions	Cannot replace medicine. Not recommended for consumption by those outside the indicated suitability group. Do not exceed the recommended dosage or take with similar nutrient supplements simultaneously.

20: Pute Health® Fish Oil Softgels

1. Product Overview

Suitable for individuals with elevated blood lipids; has the function of assisting in reducing blood lipids.

2. Product Functions

Product Functions	Assists in lowering blood lipids.
-------------------	-----------------------------------

3. Product Specifications and Ingredients

Product Specifications	60 g (0.5 g/gel × 120 gels)
Ingredients	Fish Oil. Excipients: Gelatin, Purified Water, Glycerol.

4. Direction for use

How to Consume	Oral, 2 times daily, 2 gels each time.
Storage Conditions	Store in a dry, cool place, away from light and keep sealed.
Cautions	Cannot replace medicine. Not recommended for consumption by those outside the indicated suitability group. Not recommended for those with seafood allergies.

21: Pute Health® Lutein Ester Gel Candy

1. Product Overview

This product is a gel candy primarily used to supplement Lutein and Zeaxanthin, helpful for protecting eyesight and reducing the effects of blue light.

2. Product Functions

Product Functions	Supplements eye nutrition, protects vision.
-------------------	---

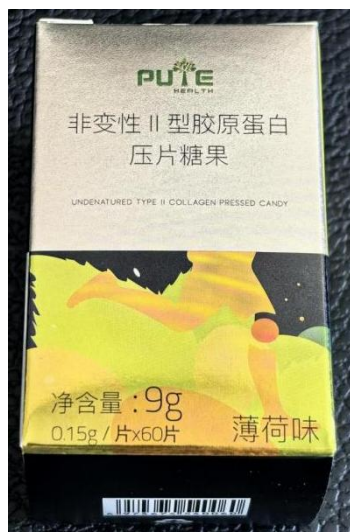

3. Product Specifications and Ingredients

Product Specifications	24 g (0.4 g/candy × 60 candies)
Ingredients	Olive Oil, Dunaliella Salina Extract (100mg/candy), Gelatin, Water, Lutein Ester Oil, Glycerol, Sorbitol Solution, Caramel colour.

4. Direction for use

How to Consume	Swallow with warm water.
Storage Conditions	Store in a cool, dry, and ventilated place, avoiding high temperature, humidity, and direct sunlight.
Cautions	Gel candies are easily affected by environmental temperature and humidity; please store strictly according to requirements. If stickiness or deformation occurs, it does not affect normal consumption.

22: Pute Health® Undenatured Type II Collagen Compressed Candy

1. Product Overview

This product adopts low-temperature extraction technology to retain the bioactive structure of collagen. Its Undenatured Type II Collagen (UC- II) keeps the natural triple-helix structure and bio-active epitopes. The low-temperature extraction locks in the original-state molecular framework of raw-materials. It can supplement collagen-based nutrition for human joints and cartilage on a daily-basis and help maintain joint comfort in daily care.

2. Product Functions

Product Functions	Improves joint pain, stiffness, and flexibility, repairs cartilage.
-------------------	---

3. Product Specifications and Ingredients

Product Specifications	9 g (0.15 g/tablet × 60 tablets)
Ingredients	D-Mannitol Starch Complex (D-Mannitol, Starch), Undenatured Type II Collagen, Sorbitol, Microcrystalline Cellulose, Citric Acid Anhydrous, Magnesium Stearate, Aspartame (contains Phenylalanine), Edible flavour, Coating Premix (Pregelatinized Hydroxypropyl Starch, Sorbitol, Stearic Acid, Titanium Dioxide).

4. Direction for use

How to Consume	Chew, once daily, one tablet each time.
Storage Conditions	Store in a cool, dry, and ventilated place, avoiding high temperature, humidity, and direct sunlight.
Cautions	Prohibited for children under three years old.

23: Songxing Caotang Polygonatum

1. Product Overview

Selects large, fleshy rhizomes of Songshan Chicken-Head Polygonatum with a polysaccharide content as high as 16.7% (higher than pharmacopoeia standards). Steamed in aluminum pots with bamboo steamers using Songshan spring water, alternating between wood fire (Yang fire) and charcoal fire (Yin fire). Naturally dried in high-mountain drying fields utilizing ample ultraviolet rays and significant day-night temperature differences. Through repeated steaming and drying over 36 days (nine steamings and nine dryings), the Polygonatum becomes black, shiny inside and out, with a soft, sticky texture.

2. Product Functions

Product Functions	Nourishes Yin, strengthens the spleen, moistens the lungs, tonifies kidneys, replenishes essence, and regulates hypertension, hyperlipidemia, hyperglycemia.
-------------------	--

3. Product Specifications and Ingredients

Product Specifications	500 g/bottle
Ingredients	Polygonatum, Yellow Wine.

4. Direction for use

Ingredients	Jujube Seed, Schisandra Fruit, White Peony Root, γ -Aminobutyric Acid, 1,2-Hexanediol, 1,2-Pentanediol, Purified Water.

4. Direction for use

How to Consume	For external use. 30 minutes before bedtime: • Tear open the package along the easy-tear notch in the middle of the plastic film and remove the cotton swab. • After removing the swab, hold it with the coloured ring end pointing upward. • Hold the upper end with one hand and snap the swab at the coloured ring with the other hand. • Wait for the liquid inside to flow down to fill half the tube, then invert the swab for use. • Gently wipe the moistened cotton tip around the nostrils and outer nasal skin in circles for 4- 5 times to make the liquid fully contact the nasal- surface skin. • Use once nightly, one swab per use, frequency can be increased based on practical needs.
Storage Conditions	Store at room temperature in a dry place.
Cautions	For external use only; prohibited for oral consumption. Keep out of reach of children. Contraindicated for pregnant women, infants, lactating mothers, and those allergic. Prohibited for use when nasal mucosa is damaged, ulcerated, or has open wounds. If discomfort occurs, stop use immediately and rinse the nasal cavity with clean water. This is a health product, not a replacement for medicine or medical device treatment.

54: Fresh-Preserved Red Goji Berries

1. Product Overview

Originating from the core region of Qaidam Basin, Qinghai, at an altitude of around 2800-3000 meters. With up to 10 hours of daily sunlight (over 3000 hours annually), a day-night temperature difference of 10°C-12°C, and sandy soil rich in potassium, nitrogen, and other minerals, conditions favor sugar and nutrient accumulation. The berries are large, full, deeply red, thin-skinned, thick-fleshed, with few seeds and a sweet taste, rich in polysaccharides, carotene, vitamins, and essential elements like calcium, phosphorus, and iron. After picking, modern techniques like intelligent drying and low-temperature vacuum pulsating fresh-locking drying, combined with traditional natural shade drying, maximally preserve the nutrients and original flavour.

2. Product Functions

Product Functions	Nourishes liver and kidney, replenishes essence and improves eyesight; enhances immune function; eliminates excess free radicals, delays aging, beautifies skin; boosts energy, protects the liver; softens blood vessels, helps regulate the "three highs".
